

Akeem Brown

SOFTWARE ENGINEER

Profile

Driven and innovative professional specializing in web and mobile app development, UI/UX design, and backend services. Over 7 years of experience in delivering quality digital products for startups, corporations, and individual clients. Expertise in project management, operations, and freelancing, with a focus on offering affordable design and development services.

Dynamic Designer, Web Maintenance, & Production Manager with a strong track record of completing website projects and apps for clients. Skilled in front end development, backend development, HTML, CSS, SCSS, JS, jQuery, and Python. Known for strong time management, flexibility, adaptability, and analytical thinking. A fast learner who thrives under pressure, communicates effectively, and excels as a team player. Eager to expand expertise in the IT sector, taking on challenging projects and advancing in a high-paying career.

Employment History

Card Associate and Field Technician, FIS

SEPTEMBER 2022 – SEPTEMBER 2022

As a Card Associate and Field Technician at FIS, I played a key role in providing technical support for card-related services and operations. I also handled on-field tasks related to card services, ensuring smooth and efficient operations.

- **Provided technical support:** Offered technical support for card-related services and operations, ensuring seamless functionality.
- **Managed on-field tasks:** Handled on-field tasks related to card services, ensuring smooth and efficient operations.
- **Collaborated with internal teams:** Worked collaboratively with internal teams to address technical issues and ensure customer satisfaction.

Website & App Developer, New Reign Investment Group, Austin

SEPTEMBER 2018 – APRIL 2020

- Designed and developed a modern, responsive website that improved user engagement and lead generation for client portfolios.
- Developed a cross-platform mobile app that allowed clients to track investments in real-time, integrating secure login features and personalized dashboards.
- Provided ongoing maintenance and updates for both the website and app, ensuring uptime and smooth performance.
- **Key Tools & Technologies:** React Native, WordPress, Python (Flask), PostgreSQL, Google Firebase.

Operations Manager, Frito Lay

MAY 2014 – MARCH 2016

As an Operations Manager at Frito Lay, I was responsible for overseeing and optimizing the company's operational processes to ensure efficiency and productivity. I implemented strategies to streamline operations and improve overall performance.

- **Optimized operational processes:** Implemented strategies to streamline operations and improve overall efficiency.
- **Enhanced productivity:** Implemented measures to enhance productivity and drive operational excellence.
- **Managed cross-functional teams:** Led and managed cross-functional teams to achieve operational goals and targets.
